

Take Steps to Reduce Our Carbon Footprint

Our People:

Engage a green team of volunteers • Appoint a company green leader • Use mass transportation • Educate others to raise environmental awareness • Join the InfoComm Green AV SIG • Promote green in our industry

- Join our local Green Building Council • Become a LEED Accredited Professional • Use AV to reduce paper consumption and travel
- Reduce, Reuse, Recycle

Our Workplace:

Create an environmental policy

- Acknowledge and reward sustainable behavior • Start an e-waste recycling or donation program • Get our office LEED certified • Sponsor an environmental workday • Become a carbon-neutral company • Deploy energy efficient lighting solutions • Become ISO 14001 certified • Audit energy usage and sources

Our Products & Services:

Focus on sustainability in our products and services • Reduce waste in manufacturing and delivery • Conserve energy in all that we do • Favor suppliers who support sustainability

- Support industry standards • Earn a LEED innovation credit • Qualify for US EPA or BS8901 green AV standards for meetings and events
